16. Authorization of the Board of Directors to decide on the repurchase of own shares

In the notice to the Extraordinary General Meeting of the company, dated 9 November 2023, the Board of Directors has proposed to the Extraordinary General Meeting that the Board of Directors would be authorised

to resolve on a rights issue based on the pre-emptive subscription rights of the shareholders (the "Rights Issue") so that a maximum number of new shares to be issued under the authorisation would be 2,500,000,000 new shares in the company. In order to adjust the maximum number of shares under this authorisation for possible increase in the number of shares resulting from the Rights Issue, the Board of Directors proposes that the Annual General Meeting authorises the Board of Directors to resolve on a repurchase of own shares as set out below.

The aggregate amount of own shares to be repurchased based on the authorisation shall be the maximum of 253,054,547, which corresponds to approximately 10 per cent of all of the shares in the company if the above-mentioned share issue authorisation proposed to the Extraordinary General Meeting would be granted by the Extraordinary General Meeting to be held on 30 November 2023 and would be used in full. The authorisation is, however, at all times limited to 10 per cent of the company's actual total number of shares, which is 3,054,547 shares if the Rights Issue is not completed, or 10 per cent of the company's actual total number of shares after the Rights Issue, so that upon completion of the Rights Issue the maximum number of shares that may be repurchased based on this authorisation will be reduced to the nearest whole number corresponding to 10 per cent of the company's total number of shares following the registration of the new shares to be issued in the Rights Issue.

The company cannot, however, together with its subsidiaries at any moment own more than 10 per cent of all the shares in the company. Only the unrestricted equity of the company can be used to repurchase own shares on the basis of the authorisation.

Own shares can be repurchased at a price formed in public trading on the date of the repurchase or otherwise at a price formed on the market.

The Board of Directors shall decide how own shares will be repurchased. Own shares can be repurchased otherwise than in proportion to the shareholdings of the shareholders (directed repurchase).

Own shares can be repurchased to limit the dilutive effects of issuances of shares carried out in connection with possible acquisitions, to develop the company's capital structure, to be transferred for financing or execution of possible acquisitions, to be used in incentive arrangements or to be cancelled, provided that the repurchase is in the interest of the company and its shareholders.

The authorisation is effective until the close of the next Annual General Meeting, however no longer than until 31 December 2024.

17. Authorization of the Board of Directors to resolve on share issues

In order to adjust the maximum number of shares under this authorisation for possible increase in the number of shares resulting from the Rights Issue, the Board of Directors proposes that the Annual General Meeting authorises the Board of Directors to resolve on share issues as set out below

The Board of Directors proposes that the Annual General Meeting authorises the Board of Directors to resolve on the issuance of shares in one or several parts, either against payment or without payment.

The aggregate amount of shares that may be issued based on the authorisation shall be the maximum of 253,054,547 shares, which corresponds to approximately 10 per cent of all of the shares in the company if the above-mentioned share issue authorisation proposed to the Extraordinary General Meeting would be granted by the Extraordinary General Meeting to be held on 30 November 2023 and would be used in full. The authorisation is, however, at all times limited to 10 per cent of the company's actual total number of shares, which is 3,054,547 shares, if the Rights Issue is not completed, or 10 per cent of the company's actual total number of shares after the Rights Issue, so that upon completion of the Rights Issue the maximum number of shares that may be issued based on this authorisation will be reduced to the nearest whole number corresponding to 10 per cent of the company's total number of shares following the registration of the new shares to be issued in the Rights Issue.

Shares may be issued to develop the company's capital structure, to finance or execute possible acquisitions and to be used in incentive arrangements, provided that the issue of shares is in the interest of the company and its shareholders.

The Board of Directors shall resolve on all the conditions of the issuance of shares. The issuance of shares may be carried out in deviation from the shareholders' pre-emptive rights (directed issuance). The authorisation concerns both the issuance of new shares as well as the transfer of treasury shares.

The authorisation is effective until the close of the next Annual General Meeting, however no longer than until 31 December 2024.

The authorisation replaces the share issue authorisation granted by the Annual General Meeting held on 1 December 2022. The authorisation would not replace the share issue authorisation sought from the Extraordinary General Meeting to be held on 30 November 2023.
